

INTRODUCING BRILLIANT MAX

A smarter home for your clients. A new revenue stream for your business.

Brilliant Max adds curated, advanced automations to the Brilliant system: **easy to set up during an install, simple to explain to clients, and a natural add-on to every job you complete.**

WHAT BRILLIANT MAX IS

A subscription that adds a library of curated automations, called **Modes**, that auto-identify a home's connected devices and configure everything in a few clicks. No manual scenes to build. And it only gets smarter over time: every new device unlocks richer automation, so expanding a client's system means a better experience for them, and a bigger job for you.

EASY TO OFFER

DURING SCOPING

Add It to the Quote

Position curated automations as getting the most from a client's devices, with no added complexity, and include Brilliant Max in the project quote.

AT INSTALL

Activate the Free Trial

Switch on the client's 30-day free trial at handoff and show how their devices work together automatically. A memorable finish to the job.

EXISTING CLIENTS

A Reason to Reconnect

Add automations current clients will love, and uncover fresh opportunities to expand their smart home.

TWO WAYS TO EARN

OPTION ONE

Bundle & Set Your Price

Buy a discounted Pro license in ProView, assign it to a home, and bundle Brilliant Max into your own service plan at any price you choose.

OPTION TWO

Earn 20% of MSRP

Prefer not to sell subscriptions? Sign up in ProView and earn 20% of MSRP every month your clients subscribe directly.
